**For Immediate Release**

CONCEPTS AV INTEGRATION EXPANDING BEYOND THE MIDWEST  
CONCEPTS AV Integration will also be serving the Las Vegas Nevada metropolitan area with unprecedented level of knowledge and service, as a local audio visual integration vendor.

**Omaha, NE** – CONCEPTS AV Integration has seen significant growth and business support from the Omaha metro community and has been sought out to expand their services to the Las Vegas Nevada metropolitan area and surrounding cities.

CONCEPTS AV Integration, a woman owned audio visual integrator, will offer design build services in addition to audio visual sales. CONCEPTS AV Integration was recognized by the Omaha Business to Business (B2) magazine for its forward thinking business model and its out of the box designs which amplify its name.

“CONCEPTS AV Integration has a corporate friendly business model which has been well received and looks forward to the expansion to Las Vegas” said Dennis Pitzl, president and CEO of CONCEPTS AV Integration.

The decision to expand to another area of the country was not taken lightly because of the young age of the company, but Pitzl responded to the business requests made to have a Las Vegas presence. Pitzl will start providing audio visual sales to the Las Vegas and surrounding areas in mid-September of this year.

CONCEPTS AV Integration has its corporate office in Omaha, NE. To learn more about the company or receive information about CONCEPTS AV Integration’s services please call 402-298-5011 or periodically check [www.conceptsav.com](http://www.conceptsav.com).
